

Yuval Rinkevich, PhD

Dr. Rinkevich is a Group Leader at the Institute for Lung Biology and Disease, Helmholtz Zentrum, Munich, Germany. He obtained a PhD degree in Biology from Technion-Israel Institute of Technology, and performed postdoctoral studies with Prof. Irving L. Weissman, Stanford Institute for Stem Cell Biology and Regenerative Medicine at Stanford University, USA.

Yuval's scientific focus lies in identifying principles of tissue/organ regeneration, and developing a knowledge basis for therapeutic strategies in clinical use. His lab is exploring the stem cells, embryonic lineages and mechanisms by which tissues/organs regenerate following injury, at multiple levels of biological organization.
